3. FACTORS RESPONSIBLE FOR THE DOWNTURN IN THE GROWTH OF THE COMPANY

- (a) The current financial distress of the Company is attributable to reasons beyond the control and commercial prudence of management:
- (i) **Regulatory Issues:** Over the past a few years, reasons like frequent change in the land acquisition laws, incremental uptrend in the foreign currency resultantly impacting the price of crude and bitumen, environment related regulatory impositions, monetary policies imposed by various regulatory authorities the operations in infrastructure as a sector felt the heat of reduction in purchasing power and delay in execution of projects beyond the envisaged and contracted time period.
 - (ii) **Liquidity Crunch:** Slowdown of economy resulted in delayed realization of debtors and retention money leading to blockage of funds.
 - (iii) **Working Capital Gap:** As a consequence of the regulatory issues the projects were delayed and consequentially the clients invoked bank guarantees which had a detrimental effect on the working and created a working capital gap. Customer realizations were being applied towards servicing financial liabilities, resulting further in creating a shortage of funds for project execution.
 - (iv) **Reduced Operating Margins:** Due to disequilibrium and disparity in input costs fluctuations coupled with inordinate delays in project completion being external factors, the Company suffered drop in operating margins.
- (b) The Company undertook Build Operate and Transfer (“**BOT**”) projects in and around Maharashtra, there was substantial cost overrun in term of incremental interest during construction, delay due to land acquisition issues, policy decision taken by Public Works Department, Government of Maharashtra (“**PWD**”) exempting toll on small cars and ST Buses, etc. These were reasons beyond the control of the management of the Company and the contingency for which no prudent business could provide for. Furthermore, there was substantial delay in getting funding tie up from the lenders to the Company due to various restriction imposed by the Reserve Bank of India (“**RBI**”) in terms of sectorial capping, project fund capping etc. The financial stress created due to these reasons resulted into termination of few of the projects of the Company being terminated and position of the Company underwent a substantial deterioration since 2014. The major reasons for the same have been discussed in the subsequent portion of this Petition. As a result of which there were defaults in payment obligation by the Petitioner towards its financial and operational creditor.

- (c) In the month of February 2016 the loan accounts of the Applicant with the Financial Creditors, were classified as Non Performing Asset with retrospective effect from January 2015 as an outcome of finding in statutory audit of the Financial Creditor. This brought the Company to a complete standstill as the limits which otherwise were available to the Company were withdrawn by banks. It is pertinent to mention here that the Financial Creditors also opted for forensic audit of the Company, however, no siphoning of funds was observed in such forensic audit. The Company along with the Financial Creditors, attempted thereafter to resolve the stress by implementing the Scheme for Sustainable Structuring of Stressed Assets (“**S4A scheme**”) (under the relevant circular of RBI), however, while the company and the Financial Creditors were in process of resolving the said stress, the relevant circular in relation to S4A Scheme was discontinued in wake of new circular of RBI issued for resolution of stressed assets on February 12, 2018 (“**Feb 12 Circular**”).
- (d) The Company had proposed to the financial creditors restructuring under the Feb 12 Circular. The Company and all the secured financial creditors had initiated the process of restructuring in guidance of the Feb 12 Circular. The said restructuring under the Feb 12 Circular was approved by majority of the lenders post completion of Techno - Economic Viability Study, Valuations, Forensic Audit, Rating by two agencies as mandated by the said Feb 12 Circular. Post all the compliance the lenders of the Company in their meeting held on 29.03.2019 had agreed that since majority of the lenders i.e. more than 78% of the financial creditors already having sanctioned the said restructuring, the said scheme can be implemented and accordingly proposed execution of the definitive documents and that in furtherance to the decision taken in the said Joint Lenders Meeting the majority of the financial creditors executed the Framework Agreement dated 29.03.2019. In terms of the said Feb 12 Circular any restructuring plan would have been deemed to be implemented on requisite entries being passed in the books of accounts of the financial creditors. The relevant portion of the said Feb 12 Circular is reproduced for the ease of reference;

“C. Implementation Conditions for RP

A RP in respect of borrower entities to whom the lenders continue to have credit exposure, shall be deemed to be ‘implemented’ only if the following conditions are met:

- a. *the borrower entity is no longer in default with any of the lenders;*
- b. *if the resolution involves restructuring; then*
 - i. *all related documentation, including execution of necessary agreements between lenders and borrower / creation of security charge / perfection of securities are completed by all lenders;*

and

 - ii. *the new capital structure and/or changes in the terms of conditions of the existing loans get duly reflected in the books of all the lenders and the borrower. “*

It is pertinent to mention that the said entries could have been only passed in the books of the financial creditors on the next bank working day i.e. 02.04.2019 and that before the said entries could be passed in the books of the financial creditors, the Hon’ble Supreme Court of India on 02.04.2019 in one Transferred Case (Civil) No.66 Of 2018 (Dharani Sugars And Chemicals Ltd. Vs Union Of India & Ors.) declared the said Feb 12 Circular as ultra vires and quashed all steps taken in furtherance to the Feb 12

Circular. The relevant paragraph of the said judgement is reproduced herein below for the ease of reference;

“Para 45

the impugned circular will have to be declared as ultra vires as a whole and be declared to be of no effect in law. Consequently, all actions taken under the said circular, including actions by which the Insolvency Code has been triggered must fall along with the said circular. As a result, all cases in which debtors have been proceeded against by financial creditors under Section 7 of the Insolvency Code, only because of the operation of the impugned circular will be proceedings which, being faulted at the very inception, are declared to be non-est.

Para 46.

In view of the declaration by this Court that the impugned circular is ultra vires Section 35AA of the Banking Regulation Act, it is unnecessary to go into any of the other contentions that have been raised in the transferred cases and petitions. The transferred cases and petitions are disposed of accordingly.”

The broad contours of the restructuring as approved by the majority of the lenders which could not be implemented due to the aforesaid judgment passed by the Hon’ble Supreme Court are as follows (i.e. restructuring under the Feb 12 Circular):

Particulars	Amount (In Rs Crores)
Total Contractual Dues (A)	3045.20
Of the (A) above to be continued as debt (B) (hereinafter referred to as “Continuing Debt”)	1000.00
Of the (A) above to be converted into Compulsory Redeemable Preference Shares (C)	2045.20
The Continuing Debt to be sub - classified as follow	
-Working Capital Cash Credit Facility (D)	400
-Term Loan Facility (E)(hereinafter referred to as “Continuing Term Loan Facility”)	600

The Company has over a period secured the financial assistance given by the financial creditors by way of charge over certain assets of the Company as well as personal assets of the Promoters/ Directors. In order to reduce the debt of the Company the said assets were proposed to be sold/ monetized and the proceeds there of (net of taxes and transaction cost) was to be used to reduce debt of the Company.

Particulars	Amount (In Rs Crores)
Continuing Term Loan Facility	600.00
Proceeds from sale of assets to be used to repay the first charge holders	129.67

Proceeds from sale of assets to be used to repay the common charge holder in proportion of their outstanding	199.60
Balance term loan to be repaid in a structured manner linked to the cash flow of the Company over a period of 9 years.	270.73

With the above restructuring the secured financial creditors of the Company would have provided bank guarantee and letter of credit facility to the tune of Rs. 480 Crores to the Company and would have helped the Company to multi fold expand its operations and cash flows. The above scheme post being approved by majority of the financial creditors and signing of the necessary documents also could not be implemented due to the decision taken by the Hon'ble Supreme Court of India in case of Dharini Sugars and Ors. Vs Union of India and Ors.

- (e) Thereafter on June 07, 2019 the Reserve Bank of India vide circular bearing reference no RBI/2018-19/203 DBR.No.BP.BC.45/21.04.048/2018-19 (“**June 07 Circular**”) issued fresh guidelines, Prudential Framework for Resolution of Stressed Assets and accordingly the financial creditors have entered into an Inter Creditor Agreement dated June 28, 2019 and due to efflux of time the debt of the company has exponentially increased mainly attributable to the accrued interest that to for period of time.
- (f) The said June 07 Circular had provided the financial creditors with options for resolution of stressed assets in the fashion they deem appropriate in accordance with the terms of the June 07 Circular and any inter creditors agreement executed pursuant thereto. In this regard, it may be noted that section 230 of Companies Act, 2013, provides for floatation of scheme of compromise and arrangement with the financial creditors of a company, which in the present case cannot be ignored as an option available with the Financial Creditors under the June 07 Circular.

4. Rationale for Arrangement

- (a) Infrastructure sector is a key driver for the Indian economy. The sector is highly fruitful and rewardable for propelling India’s overall development and enjoys intense focus from government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Development of infrastructure is a very significant milestone for making India a US\$ 5 trillion economy. In a step towards this direction, the last Union Budget has also made significant allocations towards development of infrastructure (INR 233,083 crore).
- (b) Presently, the Government of India is giving lot of impetus to infrastructure development to attract multinational corporations to invest in India and project India as one of the manufacturing hubs globally. According to Indian Infrastructure Sector in India Industry Report, India plans to spend US\$ 1.4 trillion on infrastructure during 2019-23 to have a sustainable development of the country. The Government has suggested investment of INR 50 lakh crore (US\$ 750 billion) for railways infrastructure between 2018-2030. The Government of India launched the National Infrastructure Pipeline (NIP) for FY 2020-2025 to facilitate world class infrastructure projects to be implemented. This first of its kind initiative will boost the economy, generate better employment opportunities and drive the competitiveness of the Indian economy. The NIP was launched with the projected infrastructure investment of INR 111 lakh crore (US\$ 1.5 trillion) during the period 2020-2025. A large part of this investment is projected for sectors such as energy, roads, railways and urban infrastructure.

- (c) The Company is very optimistic about its future, considering the Government's long-term vision for India and its focus on infrastructure development. The present management is also aggressive in its business strategy. This is demonstrated by the value of order book of about INR 550 crores currently on hand with the Company, as listed above in Schedule "B". It is expected that the cash flows from existing and new projects and realization of receivables on hand, would help the Company to stabilize its business operations in future. However, the Company is expected to be able to sail through the existing adverse financial condition upon implementation of the Scheme, to achieve status as a going concern.
5. This Scheme of Compromise/Arrangement is being propounded under Section 230 of the Companies Act, 2013 with the following objectives:
- (a) To arrive at a compromise and arrangement with the Financial Creditors for repayment of the monies as specified hereunder and to ensure that the Company continues as a going concern and without adversely affecting its current business and future prospects and interests of all stakeholders.
- (b) To continue business operations, that is completion of infrastructure projects in hand today that are of national importance, and improve overall viability of Company's business operations, current as well as future.
- (c) The Company is standing as guarantor to secure the debts of subsidiary companies which are special purpose vehicle companies ("SPVs"). The loan accounts of the said SPVs are also undergoing resolution with their respective financial creditors. In order to ensure that the Company fulfills its obligations, if any, for successful implementation of the resolution plan of the SPVs the Company proposes to raise additional sum over and above the equity requirements under the Scheme by way of equity and the same would be earmarked to meet the shortfall between the resolution value as envisaged by the respective financial creditors in the said SPVs and as contributed by the SPVs. It is clarified that this would not be a condition to the payments to the Financial Creditors of the Company under this Scheme. Notwithstanding anything to the contrary, it is hereby clarified that: (i) any payment pursuant to aforesaid shall not be made from the Settlement Amount payable to the Financial Creditors obligated herein under this Scheme; (ii) any amount earmarked under this Scheme for making any payment to any person other than the Financial Creditors herein, shall be subservient to the payments being made to the Financial Creditors and shall not be made from the Settlement Amount.
- (d) Supreme Housing and Hospitality Private Limited is a private limited company incorporated under the provisions of the Companies Act, 2013 ("SHHPL") and it is an associate of SIIL/ Company. SHHPL is also owner of the Supreme Business Park on which State Bank of India and ICICI Bank Ltd are having mortgage as they have provided credit facility to SIIL/Company and security was provided in form of mortgage over Supreme Business Park. In order to resolve the financial stress of the said SHHPL, in terms of discussion with Canara Bank, the sole financial creditor to SHHPL, a separate scheme under section 230 - 232 of the Companies Act, 2013 is being proposed by SHHPL. As the resolution of SHHPL and Company would involve monetization of the asset namely Supreme Business Park and State Bank of India and ICICI Bank Ltd are also having charge on the Supreme Business Park, the approval of present Scheme would mean that the relevant Financial Creditors have no objection to the scheme of SHHPL to the extent of charges of the relevant Financial Creditors on Supreme Business Park for the facilities availed by the Company from the relevant Financial Creditors which are being/to be released under this Scheme against receipt of proceeds from the monetization of Supreme Business Park as proposed under this

Scheme. It is clarified for abundant caution that the Financial Creditors are providing their consent only to this Scheme and shall not be construed to provide any approval/no-objection for any other scheme under section 230 of the Companies Act, 2013.

- (e) To enable the Company to settle the dues with the Financial Creditors, the Company Proposes to settle the Financial Debt as follows:

Sr. No	Particulars	Amount in Rs Crores
